

MANIFESTO

FREEZIM OBJECTIVE

As FreeZim Congress (“FREEZIM”), our objective is to create a peaceful, productive and prosperous united nation of Zimbabwe where individual freedom, diverse cultural beliefs and practices; communities’ and societal values are unbreakable umbilical cords that binds our people together to live and work for the common good.

This singular objective will be achieved and maintained through

- 1) **Peoples’ Constitution of Zimbabwe**
A timeless constitution that is understandable and relevant to all persons of any age, gender, racial grouping, religion, origins, physical status or any other aspect that defines life, and a constitution that protects the environment.
- 2) **Accountable, Responsible Government**
A responsive, caring and compassionate government free of greed, corruption and exploitation of one human being by another, and of many by a few.
- 3) **Land and Food Security**
Distribution of land must be fair, equitable and optimally productive for the benefit of all Zimbabweans and growth of the country. In particular, land must be made available to all those who seek and depend on it for livelihood
- 4) **Equality of All People**
Promotion of openness, fairness, justice, and equal opportunities in development and economic participation must be protected in the constitution of Zimbabwe.
- 5) **Essential Social Services**
Provision of access to basic essential social services: Education, Health, Food, Shelter, Energy, running clean Water, and affordable Public Transport System to all without any form of discrimination or structural exclusion as inherent rights. Free primary and secondary education at Government Schools
- 6) **Industrialization and Job Security**
Creation of sustainable productive regional industries based on the spread of our natural resources – mainly rich agricultural land and minerals to provide jobs and socio-economic development.

One Nation, One Objective

- 7) **Research and Development**
Creation of platforms for unlimited human capital development, freedom, and progressive useful research aimed at industrial and social development
- 8) **Diversity and Rights**
Respect and acceptance of diverse cultures that promote peace, societal development, human and animal rights that do not prejudice on the rights of others or life are key to sustainable harmonious co-existence.
- 9) **Laws and Security**
Assistance and protection must be provided to all citizens of Zimbabwe anywhere in the world where required and possible, guided by the People's Constitution of Zimbabwe and general principles of humanity without any form of discrimination.
- 10) **Environment and Planet**
Protection and nurturing of the environment for the survival of all forms of life with minimum destruction of nature.
- 11) **Foreign Policy**
Adoption of a new foreign policy that promotes global peace, mutual respect and economic benefits; and equal opportunities to all nations.
